## **SAYING HELLO**

Nearly two decades ago, we created a business partnership that grew into a friendship neither of us could have imagined. I guess we could say the same for the business that has come of it as well. With property marketing syndication across 2,300+ touchpoints and a perpetually expanding database of more than 60 million persona-based contacts powered by Amazon Web Services, we put your property in front of more potential buyers than anyone else. 1MW.com, our award-winning in-house marketing team, produces unrivaled creative content. Only at Wilen Coldwell Banker, NONMLS.com®, the original private and off-market syndicate, offers both opportunity and value. If you're considering selling your real estate or simply want to get a sense of your property's value, we would love to connect.
